New Viostream TV Portal Launched

14 Mar 2008

The Rabbitohs now have an enhanced Viostream online TV portal that Members can use to watch playlists of all their favourite SSTV content and share the videos with others.

The SSTV content is also divided into channels so you can easily find and watch weekly content and compare to past episodes such as JT's Line Up and Member Hot Topics.

The portal will be officially launched tonight in the build up to kick off with a 90-second video from our Season Launch presentation. You can watch this video under 'In Focus at Training' through the new Viostream TV portal that has a dedicated link in the top navigation bar of the website, or you can [click here](#).

Viostream.TV is for organisations wishing to set up their own Internet TV station within their website. It is totally customisable and can be completely white-labelled in your look and feel. Uses include:

- Corporate Communications
- Product / Service Training
- User Generated Content
- Sports Updates

Viostream.TV enables an organisation to create channels, thumbnails, integrated ad-serving and playlist feature sets. It extends the value of online digital media for organisations by automatically creating a user-defined portal with room for advertising, sponsorship, comments, polls, and video rankings. Integration to social networking sites is also available.

For more information on how you can harness the power of Viostream.TV, contact us on sales@viocorp.com.
