

## **WACA / Rugby WA**

ISFM has been appointed jointly by Rugby WA and the WACA to provide expert advice together with the master planning of the following two projects:

- Redevelopment of the WACA Ground

The project includes for an increase in the WACA's capacity from 24,000 up to 35,000 and accommodation of rugby, including Western Force Super 14 matches.

- Development of a Centre of Excellence

Facilities to provide a consolidated Centre of Excellence for both Cricket and Rugby including playing and training fields, player change and lounge facilities, administration and fitness centre together with state of the art rehabilitation facilities.

## **Sydney Olympic Park Authority**

Sydney Olympic Park Authority has recommissioned ISFM to continue its initial planning of training and player facilities undertaken 4 years ago to support elite and community needs within Olympic Park.

A further objective of the study is to deliver long term, sustainable business opportunities for existing venues at Olympic Park as well as expanded product.

## **South Sydney Rabbitohs**

ISFM is presently working together with the new

Peter Holmes a Court/Russell Crowe structured South Sydney Rabbitohs on the projects listed below:

- Erskineville Oval

Upgrading of facilities at the oval to accommodate the Rabbitohs up until their transfer to Redfern Oval.

- Redfern Oval

Continuing on from the original master plan established for Redfern Oval, some 4 years ago, ISFM has now assisted the Rabbitohs in the planning of their state of the art training facilities in conjunction with the City of Sydney.

- South Sydney Leagues Club

ISFM is managing a proposal for the redevelopment of the existing Leagues Club for a number of members which is supported by the Football Club through long term leases for offices, a hall of fame and a new health and fitness centre.
