Merry Christmas to you and yours too Peter.

Crazy is as crazy does. If it was not for crazy there we would still be hunting mammoth with rocks and saying 'ughh'.

But that is just personal opinion.

Enjoy your holidays. And say hello to your Mum, I used to take her bank deposits in the Rural and Industries Bank of WA at Cottesloe. Lovely lady!

Mr Botak,

you are half crazy.

Half brilliant.

I seek the same balance.

Merry Christmas to all. Well, all of those that support the non-dark side. Signing off for a few weeks.

P

Peter,

An interesting contact surfaced today. Daryl Reilly is a life member of Souths Juniors and was a Souths Leagues director for a significant period during the 1990s while Piggins was chairman.

He has told people just recently that he is willing to talk. He has also been telling people that the current Leagues Club board is preparing another large sell-off of poker machines to "keep the receivers away".

I will be handing this contact on to NSW Dept of Gaming and Racing and ASIC.

I have no other contact details for him, but he should not be hard to find being a life member of the Juniors. I should imagine that Henry Morris would know him.

They are starting to come out of the woodwork Peter, I think as things progress we will see more of this. Piggins position is largely untenable from the point of view of the internet. It also appears that the non-internet Souths supporters are also sick of him (judging by certain posts made on the Hutch recently). The more he carries on in the press the worse his public persona becomes.

We hold fast and keep up the pressure and this will continue to happen, more and more will we see people willing to speak out. It will also engender more mistakes from the Piggins side. As they only know one way to behave and that is poorly and publicly.

I am confident that your proposal will see it through. We will more than likely need some big press when an EGM (hopefully) or the AGM is announced so that as many interested Members may be present to vote. The pressure also needs to be firmly held on Pappas etc. to hold the meeting at a suitable venue. i.e. one which may hold 1000s rather than 100s.

The worm is certainly turning. Playing a straight bat will pay off!
