Wade,

Long (20 page) letter from miles to the club today attacking you, botak and rudy (wolfy?) ask us to ban you all.

I will send it to you.

As for the following, I find it interesting, but I find suggestions that the campaign will be picked up by others a bit sad and boring.

Peter

Chris,

It is way past the time, but I have come to my senses and now realise how destructive my barrage of hate emails has been. I apologise to all involved and would like my apology passed on to George and Noelene. I might not agree at all with GP but have come to understand that there are ways of dealing with issues and my way has been wrong.

As you know mate, this campaign has been orchestrated for some time. We always planned for Wade to run the site attacking South Sydney Management, but we needed faceless names to fill roles. Botak was the guy with the inside info (he still had his old group14 contacts), and my job was to be a vicious attack dog, thus the name Wolfy. To be frank, it got out of hand almost straight away and I expected at any time that we would get outed. Looks like being an anonymous coward on the internet is pretty easy to maintain.

This is not going to be the end of your troubles though, when I told the guys that I was no longer willing to peddle the amount of crap that was being emailed out, they altered my email and forum accounts so I no longer have access.

After what I have done in the past, I obviously cannot reveal who I am, but would be willing to help if problems arise in the future.

The guys are getting pretty desperate now, too many things are going well at the club and they hate the fact that hardly anybody believes what they say anymore with people having a lot more faith in the new management. Look out, they are already planning a campaign to start to attack the new guys first and will start this by upping their attacks on Richo and Bomber.

They will do anything to try to make themselves important, including doctoring up facts and making up documents to support their lies.

Good Luck

Wolfy
