Hi Peter,

Just quickly P wanted to know whether you got his message regarding 2UE tomorrow and wanted me to remind you that Johnny Gibbs mobile number is 0412-260 ---. He also offered to accompany you to the Studio if you wish, only because he has worked with the people there for years so knows them all well.

Still considering some of the things in your other email. Should you choose to contact people privately via PM I would advise using the other account your registered (peterh?) to do so. This does have the potential to backfire if the wrong person is contacted but that all depends on how you word your request I suspect.

I'll give 2UE a call tomorrow night. My talkback name is Warren. There's no reason we can take maximum advantage of the opportunity tomorrow night presents. Is there any particular question or questions you'd like to be asked? :)

Finally, good luck with tonight. From what we hear they have a siege mentality about your visit so going in soft might catch them off guard. Talk soon.

--

Regards,
Wade Singleton
